

Lemon Bay Watershed Management Plan

August 2010

[Download complete plan \(954 pages, 33 MB\)](#)

Download individual chapters below

Sarasota County and the Southwest Florida Water Management District (SWFWMD) have partnered to develop this plan for Lemon Bay, which is an estuary of national significance, and a designated aquatic preserve. The plan is a regional initiative that promotes and furthers the implementation of the Sarasota County Comprehensive Plan, the Charlotte Harbor National Estuary Program's (CHNEP) Comprehensive Conservation and Management Plan (CCMP), SWFWMD's Southern Coastal Watershed Comprehensive Watershed Management Plan, and the Lemon Bay Interagency Comprehensive Watershed Management Plan.

TABLE OF CONTENTS

[Chapter 1](#) (3.68 MB)

PROJECT BACKGROUND AND PHYSICAL SETTING

- 1.1 BACKGROUND
- 1.2 PURPOSE AND OBJECTIVE
- 1.3 WATERSHED
 - 1.3.1 Political Jurisdictions
 - 1.3.2 Boundary
 - 1.3.3 Topography
 - 1.3.4 Physiographic Region
 - 1.3.5 Surface Hydrology
 - 1.3.6 Geology and Hydrogeology
 - 1.3.7 Soils and Sediment
 - 1.3.8 Land Use
- 1.4 ESTUARY
 - 1.4.1 Boundary
 - 1.4.2 Designated Use
 - 1.4.3 Bathymetry
 - 1.4.4 Circulation and Coastal Passes
 - 1.4.5 Sediment

- 1.5 PUBLIC LANDS
- 1.6 THREATENED AND ENDANGERED SPECIES
- 1.7 RECREATIONAL FACILITIES
- 1.8 PUBLIC EDUCATION

[Chapter 2](#) (447 KB)

GOALS AND OBJECTIVES

- 2.1 NATURAL SYSTEMS
 - 2.1.1 Proposed Goals, Objectives, and Approaches
 - 2.1.2 Previous Goals, Objectives, and Recommendations
- 2.2 WATER QUALITY
 - 2.2.1 Proposed Goals, Objectives, and Approaches
 - 2.2.2 Previous Goals, Objectives, and Recommendations

- 2.3 WATER SUPPLY
 - 2.3.1 Proposed Goals, Objectives, and Approaches
 - 2.3.2 Previous Goals, Objectives, and Recommendations
 - 2.4 FLOOD PROTECTION
 - 2.4.1 Proposed Goals, Objectives, and Approaches
 - 2.4.2 Previous Goals, Objectives, and Recommendations
- [Chapter 3](#)** (5.24 MB)
NATURAL SYSTEMS
- 3.1 WATERSHED
 - 3.1.1 Critical Natural Resources
 - 3.1.2 Freshwater Inflow
 - 3.1.3 Habitat Improvement
 - 3.1.4 Vegetative Buffers
 - 3.1.5 Preservation Area Mapping
 - 3.2 ESTUARY
 - 3.2.1 Critical Natural Resources
- [CHAPTER 4](#)** (4.25 MB)
WATER QUALITY
- 4.1 STATUS AND TRENDS
 - 4.1.1 Estuarine Water Quality
 - 4.1.2 Watershed Water Quality
 - 4.1.3 Water Quality Conditions of Concern
 - 4.2 WATER QUALITY TARGETS
 - 4.2.1 Seagrass-Related and Water Quality Standard-Based Targets
 - 4.2.2 Salinity Targets
 - 4.3 POLLUTANT-LOADING ANALYSIS
 - 4.3.1 Estimation of Pollutant Loading to Lemon Bay
 - 4.4 ANALYSIS OF THE RESPONSES IN LEMON BAY TO POLLUTANT LOADINGS
 - 4.4.1 Nutrient Loading to Estuaries
 - 4.4.2 Influence of Circulation and Residence Times
 - 4.4.3 Nutrient Loading and Its Impact on Estuaries
 - 4.4.4 Response in Lemon Bay to Variation in Nutrient Loading
 - 4.4.5 Relationship Between Water Quality in Lemon Bay Tributaries to Variation in Pollutant Loading

- 4.4.6 Freshwater and Pollutant-Load Targets and Reduction Goals for Lemon Bay
- 4.4.7 Comparison of the Proposed Nitrogen Loading Target to Future Nitrogen Loading to Lemon Bay
- 4.5 CONCLUSIONS AND RECOMMENDATIONS
 - 4.5.1 Recommended Water Quality Improvement Programs

[Chapter 5](#) (2.37 MB)

WATER SUPPLY

- 5.1 INTRODUCTION
- 5.2 POTENTIAL PROJECTS
 - 5.2.1 Regional-Scale Projects
 - 5.2.2 Subregional-Scale Projects
 - 5.2.3 Local-Scale Projects
- 5.3 RECOMMENDATIONS

[CHAPTER 6](#) (1.08 MB)

FLOOD PROTECTION

- 6.1 BACKGROUND
- 6.2 FLOOD PROTECTION STATE LEGISLATION AND LOCAL ORDINANCES6-3
 - 6.2.1 Legislation
 - 6.2.2 Ordinances
 - 6.2.3 Flood Protection and Floodplain Management
 - 6.2.4 Planning Studies and Efforts
- 6.3 WATERSHED MASTER PLANNING
 - 6.3.1 Flood Protection Level of Service (FPLOS)
 - 6.3.2 Watershed Modeling and Map Modernization
 - 6.3.3 Capital Improvement Projects
- 6.4 CONCLUSION

[CHAPTER 7](#) (3.17 MB)

STORMWATER MANAGEMENT

FACILITY MAINTENANCE

- 7.1 INTRODUCTION
- 7.2 FACILITIES AND RELATED PROGRAMS
 - 7.2.1 Facilities
 - 7.2.2 Related Programs
- 7.3 WATER QUALITY MAINTENANCE PRACTICES AND CONSIDERATIONS7-5
 - 7.3.1 Current Practices
 - 7.3.2 Field Observations of Maintenance Practices
 - 7.3.3 Considerations for Vegetation Removal

7.4 BEST MANAGEMENT PRACTICES

7.4.1 Structural BMPs

7.4.2 Non-Structural BMPs

7.4.3 Source Control

7.4.4 BMP Efficiencies

7.4.5 Cost/Benefit Analysis

7.5 RECOMMENDATIONS

7.5.1 Inspection and Permit Compliance

7.5.2 Facility Maintenance and BMPs

7.5.3 Other

[Chapter 8](#) (6.10 MB)

PROJECT ANALYSIS

8.1 INTRODUCTION

8.2 MEASURES OF BENEFITS

8.3 BENEFIT VALUE

8.4 PROJECT BENEFITS

8.5 STATUS OF PROJECTS FROM PREVIOUS PLANS

8.6 PROGRAM RECOMMENDATIONS

8.6.1 Public Outreach and Education

8.6.2 LBP12: National Pollutant Discharge Elimination System (NPDES)

8.6.3 LBP15: Facilitating Agricultural Resource Management Systems

8.6.4 LBP16: Preservation Areas

8.6.5 LBP32: Septic Replacement Program

8.6.6 LBP35: Septic to Cistern

8.6.7 LBP19: Strategic Maintenance Manual

8.6.8 LBP08: Stormwater Manual

8.6.9 LBP26: Composting Pilot Study

8.6.10 LBP31: Low Impact Development (LID)

8.6.11 LBP17: Exotic Species Management Program

8.7 CONCEPTUAL LEVEL PROJECT SHEETS AND COST ESTIMATES

[Chapter 9](#) (440 KB)

Monitoring and Implementation

9.1 ENVIRONMENTAL MONITORING

9.2 WATERSHED REPORT CARD

9.2.1 Report Card Scoring

9.3 MONITORING OF RECOMMENDED PROJECTS AND PROGRAMS

9.4 ACTION PLAN DATABASE: TRACKING PROGRESS

[APPENDIX A, B, C](#) (8.50 MB)

A – EXISTING MANAGEMENT PROGRAMS

B – POLLUTANT LOAD RESULTS

C – SEDIMENT MANAGEMENT PLAN
