The Roberts Bay North WMP is a regional initiative that promotes and furthers the implementation of the Sarasota County Comprehensive Plan, the Sarasota Bay Estuary Program's (SBEP) Comprehensive Conservation and Management Plan (CCMP), and the SWFWMD's Southern Coastal Comprehensive Watershed Management Plan. The purpose of this initiative is to develop and implement a watershed management plan for Roberts Bay North and its watershed which effectively addresses water quality, hydrology, floodplain management, ecosystem management, and sustainable surface water supply issues.
