

How You Can Help.... As An Angler

Commit yourself to ethical angling; the future of your sport depends on it!

- Help fish stocks increase through catch and release.
- Limit your take and vary your target.
- Observe regulations and report violations.
- Only keep fish for food or trophy.
- Share what you know to help the sport grow.

In many cases, a license is required for saltwater fishing. Contact the Florida Fish and Wildlife Conservation Commission (www.myfwc.com) for license requirements, as well as for information on size and bag limits and seasonal closures.
