SHORED UP

When Superstorm Sandy devastated the East Coast, it was a wake up call to a new reality. *Shored Up* takes us to the heart of this climate change controversy, following communities in NJ and NC where politics, economics and science collide.

As the oceans rise and storms flood our towns and cities, do we ignore nature, or do allow science to guide our policies?

Tuesday Nov. 5, 2013: New College of Florida
Reception: 6:00 PM, Film starts at 6:30, Discussion follows
Mildred Sainer Pavilion, 5313 Bayshore Rd, Sarasota Florida

With Jono Miller (New College) & Dr. Ernie Estevez (Mote Marine Laboratory)
